SPONSOR PACK JUNE 2011-2012

## PRICING

To have a banner in my blogs sidebar, on every page contained within, in rotation with the other advertisers (so no one advertiser is at the top) the cost is £20 per month.

That's your advertisement, shown to 500 unique visitors a day every day for a month for £20

**That's 15,000 times a month!**

You're only committed to 1 month at a time

**If you take 6 months though, you'll receive 10% off**

## CONDITIONS

In order to keep the consistency of my blog high and to protect my reputation all advertisers are vetted. I don't want to put my good name against a service or supplier with bad reviews as it will ultimately reflect bad on me by association.

Photographers are not allowed to advertise (for obvious reasons!)

Advertisements must be 200 pixels wide, 100-140 pixels high. These will be clickable and will open a new window to your site.
